HR Onboarding — How the whole system fits together

The employee lifecycle from job opening to exit, and where each step lives in the left menu

1 · Hire — Jobs

2 · Onboard — Onboarding · Tasks

3 · Employee record — Employees

4 · Run & manage — Payroll · Benefits · PTO · Performance · Compliance

5 · Offboard — Offboarding

Payroll

Payroll periods → timecards → exceptions & adjustments → approved, submitted, processed, posted.

Benefits

Open an enrollment period → employees elect plans → HR review → payroll deduction set-up → reconcile with the carrier.

Time off (PTO)

The employee submits a request → the manager approves (HR can override) → the PTO balance goes down.

Performance & learning

30/60/90-day and annual reviews, probation, goals, training, certifications and licenses.

Compliance

The compliance calendar, requirements per employee, regulatory audits and automated reminders.

Left menu map (HR Onboarding app)

Menu	What you'll find inside
Home	The HR dashboard with KPI cards for every area, plus the "Open HR reports" button
Tasks	My tasks, HR tasks, HR task dashboard
Jobs	Requisitions, candidates, applications, interviews, offers, pre-employment verification
Onboarding	Onboarding records, onboarding dashboard
Employees	Employees, company assets, compensation & position changes
Time off (PTO)	PTO requests, PTO balances, PTO policies
Payroll	Payroll dashboard, payroll periods, timecards, adjustments, exceptions
Benefits	Benefits dashboard, plans, enrollment periods, enrollment, employee benefits, reconciliation
Performance & learning	Reviews, review periods, goals, training courses & assignments, certifications, licenses
Compliance	Lifecycle & compliance dashboard, compliance calendar, requirements, regulatory audits
Offboarding	Terminations, termination dashboard, IT access revocation
Reports & settings	HR reports, integration providers, integration requests

Who does what (roles)

HR (HR Onboarding – HR)

Has full access across every area. Creates requisitions, screens applications, sends offers, runs onboarding, payroll review, benefits, compliance and terminations. Reviews every background check result. Can see sensitive pay data.

Hiring manager

Views recruitment records and approves requisitions and offers.

Interviewer

Views applications and edits interviews (feedback, results). Sees a reminder for every assigned interview.

Manager

Gets read-only access to their own direct reports. Approves PTO requests and submits timecards.

Payroll

Sees salary, pay rate, bank and tax fields and works the payroll periods.

Every employee

Works their own tasks in Tasks › My tasks.

The **Tasks** engine runs underneath every workflow. Onboarding, offboarding, compliance and review steps all create tasks that land in **My tasks** for the assigned person or role, with dependencies, due dates and reminders.

1–3 · Hire → Onboard → Employee

From an approved job opening to a fully onboarded employee

1 Recruitment (menu: Jobs)

Create a job requisition

Jobs › Job requisitions

HR

Enter the position, department and headcount.

Draft · Pending approval

Approve & post

Hiring manager

Once it's approved, open it for applications and post it to a job board (Indeed by default, LinkedIn optional).

Approved · Open for applications · Rejected

Candidate + application

Job candidates / Job applications

HR

Add the candidate profile and resume, then create an application against the requisition.

New · Screening · HR review · Shortlisted

Interviews

Jobs › Job interviews

Interviewer

Phone screen, technical and final rounds. Zoom video calls save the recording and transcript to the interview.

Scheduled · Completed · No show

Job offer

Jobs › Job offers

HR → Hiring mgr

Draft the offer, get approval, then send it for e-signature.

Draft · Pending manager approval · Sent to candidate · Accepted · Rejected / Expired

Pre-employment verification

Pre-employment verification

HR

Run the background check. HR reviews every result; nothing is decided automatically.

Requested · Passed · Manually verified · Failed

Application stages: **New → Screening → HR review → Shortlisted → Phone screen → Interview → Offer → Hired** (or Rejected / Offer declined / Withdrawn). When the role is filled, set the requisition to **Filled**.

2 Onboarding (menu: Onboarding + Tasks)

Start onboarding

Onboarding › Onboarding

HR

Create the onboarding record for the hired candidate.

Not started · In progress

Onboarding tasks

Tasks › My tasks

Assignees

Action, approval, document, verification, training and review tasks. Some tasks wait on others to finish first.

Pending · In progress · Blocked / Overdue · Completed

Finish

Onboarding dashboard

Track active and completed onboarding, overdue tasks and compliance gaps.

Completed

3 Employee record (menu: Employees)

Employee

Employees › Employees

HR

This is the central record that every other area points to.

Pre-hire · Active · On leave · Terminated

Company assets

Employees › Company assets

Laptop, badge and similar items, with the condition at issue.

Issued · Return pending · Returned · Lost

Changes

Compensation & position changes

Promotions, pay and position changes.

Draft · Scheduled · Applied

Tip: open the **Jobs** menu first. Its landing page shows open requisitions, active applications, upcoming interviews and offers awaiting a reply, with one-click links to each list.

4 · Run & manage — Payroll, Time off, Benefits

The recurring cycles HR, managers and payroll work through

P Payroll cycle (menu: Payroll)

Open the period

Payroll › Payroll periods

Payroll / HR

Create the pay period (for example, 2026-10-12 to 10-25).

Draft · Calculating

Timecards

Payroll › Timecards · Manager

Managers submit their team's hours.

Draft · Submitted by manager · Approved · Rejected

Exceptions

Payroll › Payroll exceptions

Payroll

Resolve missing timecards and other issues.

Open · In progress · Resolved · Dismissed

Adjustments

Payroll › Payroll adjustments

Corrections, bonuses and deductions.

Draft · Submitted · Approved · Applied

Review & close

Manager / payroll

Move the period through review to the payroll provider (iSolved).

Exception review · Manager / payroll review · Approved · Submitted · Processed · Posted

T Time off request (menu: Time off (PTO))

Policies & balances

PTO policies / PTO balances

HR

Set up the PTO types. Vacation, sick and personal time draw down one balance; bereavement and jury duty don't.

Request

PTO requests · Employee

Draft · Submitted - awaiting approval

Decision

Manager (HR override)

Approved · Rejected · Cancelled

Approved time is taken off the balance.

B Benefits enrollment (menu: Benefits)

Plans & period

Benefit plans / Enrollment periods

HR

Define the plans, then open the enrollment window.

Draft · Open · Closed

Enrollment

Benefits enrollment

Eligibility check → elections → submit.

Eligibility check · In progress · Submitted · HR review · Returned for correction

Confirm & reconcile

Employee benefits / Reconciliation

Confirmed · Payroll deduction setup · Enrollment complete

Then resolve any mismatches with the carrier or payroll.

Tip: each area has its own dashboard (**Payroll dashboard**, **Benefits dashboard**). The **Home** page shows the headline numbers for all of them, such as timecards, missing timecards, exceptions, enrollment % and reconciliation issues.

4–5 · Performance, Compliance & Offboarding

Keeping employees reviewed, trained and compliant, and closing out an exit cleanly

R Performance & learning

Review period

Review periods · HR

Draft · Open · Closed

Performance review

Performance reviews

Manager

30/60/90-day, probation and annual reviews.

Scheduled · In progress · Awaiting employee comments · Completed

Goals

Goals

Not started · In progress · Completed

Training

Training courses › assignments

Assigned · In progress · Completed · Overdue / Expired

Certifications & licenses

Certifications / Licenses

Watch the expiry dates. The dashboard flags anything expiring in the next 30 days.

Pending · Valid · Expired

Probation

Employee

In probation · Completed · Extended · Not passed

C Compliance

Requirements

Compliance requirements

HR

Define what each employee or state needs (multi-state rules).

Calendar & reminders

Compliance calendar

Due items generate reminders and tasks.

Pending · Completed · Overdue · Waived

Audits

Regulatory audits

Scheduled · In progress · Completed

The **Lifecycle & compliance dashboard** shows the 30-day look-ahead: probation completions, expiring certifications and upcoming compliance requirements.

5 Offboarding / termination (menu: Offboarding)

Initiate termination

Offboarding › Terminations

HR / Manager

Choose the type: resignation, layoff, for cause, retirement, and so on.

Initiated

Approval

Approver role (per type; HR by default)

Submitted for approval · Approved · Rejected

On approval, the employee switches to **Terminated** with the effective date.

Offboarding tasks

Tasks › My tasks

IT, benefits, compliance and asset-return steps.

Waiting · In progress · Completed · Not applicable

Access & assets

IT access revocation

Revoke system access and collect company assets.

Pending · Requested from provider · Revoked · Failed

Final pay & close

HR / Payroll

Accrued PTO hours are pre-filled from the balance (HR can override) and go to final pay.

Offboarding in progress · Offboarding complete

Termination dashboard: upcoming terminations, active offboarding, assets outstanding, access pending, final pay

How to use the system — quick start

A practical routine for each role, and where to click first

Every day — HR

- Open **Home** and scan the KPI cards for anything red, such as overdue tasks or compliance gaps.
- Go to **Tasks › My tasks** and clear what's assigned to you or the HR role.
- In **Jobs**, move applications forward a stage and check upcoming interviews and offers awaiting a reply.
- In **Onboarding**, chase blocked or overdue onboarding tasks.
- In **Time off (PTO)**, handle requests waiting on an HR override.

Managers & interviewers

- When you log in, check the **reminders** (bell icon) for interviews assigned to you, with their date and time.
- Open the interview, join the Zoom call, record the result and set it to **Completed**.
- Approve **requisitions** and **offers** waiting on you.
- Approve or reject **PTO requests** and submit **timecards** each period.
- Complete **performance reviews** for your direct reports.

Each cycle / period

- **Payroll:** open the period, collect timecards, clear exceptions, then approve and submit.
- **Benefits:** open enrollment, review submissions, confirm, set up deductions and reconcile.
- **Compliance:** work the 30-day look-ahead and audits.
- **Reports & settings › HR reports:** run the standard reports with filters.

Navigating any area — the same 3 clicks

1 · Pick a menu
Click a group in the left menu, for example **Jobs**.

›

2 · Landing page
See that area's KPI cards and its list of sections, each with **Open** or **View all**, plus **New** buttons to create records.

›

3 · List → record
Open a list, filter it, and open a record. Change its **status** to move it to the next step of the flow.

›

Follow the status
Each record's status tells you where it is in the flow. Tasks and reminders tell you what's next and who owns it.

Integrations (Reports & settings)

- **Indeed** (default) and **LinkedIn** handle job postings. **ScreeningWise** runs background checks, **iSolved** runs payroll, and e-signature handles offers. Email is sent over SMTP.
- These currently run on **mock providers** until real credentials are added. Check **Integration requests** for anything Queued, Failed or Cancelled.

Good practice

- Always link records: a candidate's application to its requisition, then the offer, then onboarding, then the employee.
- Fill in KPI targets and the undocumented settings (PTO carryover, annual allocation, rating scale, reminder lead days). They start out empty on purpose.
- Use statuses rather than deleting records. Every change is kept in the audit log.
